#### 23:03 \$ 22% Terms of Use

DynaMed products provide a clinical decision support system and reference service. This software is only an aid to the practilioner and cannot be a substitute for conscientious clinical practice in which an appropriately qualified health care provider with current knowledge and skills delivers high standard medical and nursing care with caution and common sense. The editors have checked with sources believed to be reliable in an effort to ensure that the information provided is relevant, up to date and of a standard acceptable at the time of publication.

I agree to be bound by the current <u>Terms of Use</u> and <u>Terms of Service</u> respectively, as posted, including the Limitation of Liability Agreement set out below.

#### DISCLAIMER/LIMITATION OF LIABILITY

Because of the broad scope, wide coverage and the possibility of human error or changes in medical sciences, the authors, editors and the publisher do not warrant that the information is in every respect accurate, complete or up to date. All users should confirm the information with other medical references and should refer to detailed prescribing information to check drug doses, methods of administration, drug interactions and adverse effects. The software is sold and/or supplied on the understanding that the authors, editors and the publisher will not be responsible for:

- Any errors or omissions in the information provided
- · The results obtained from use of this information
- Any other use made of this service

To the fullest extent permitted by law, DynaMed and all parties involved in the ownership, creation, production, distribution, promotion, and marketing of the DynaMed service expressly disclaim liability, whether under contract, tort or otherwise, for any special, direct, indirect, incidental, reliance, exemplary, or consequential loss or damage resulting from the use of this service by any person who may purchase, borrow or use it including, without limitation, loss of data or profits, or for inability to use the DynaMed service. This exclusion extends to any patient or other person who may suffer a loss from use of the software.
